## Component Drawers F600

### Features

Includes	<b>Tray with integrated handle</b>
Separator type	<b>Individual tray and mobile separator</b>
Labelling	<b>Front and interior</b>
Materials	<b>White polypropylene</b>
Standard	<b>ISO 3394, 2012 version</b>

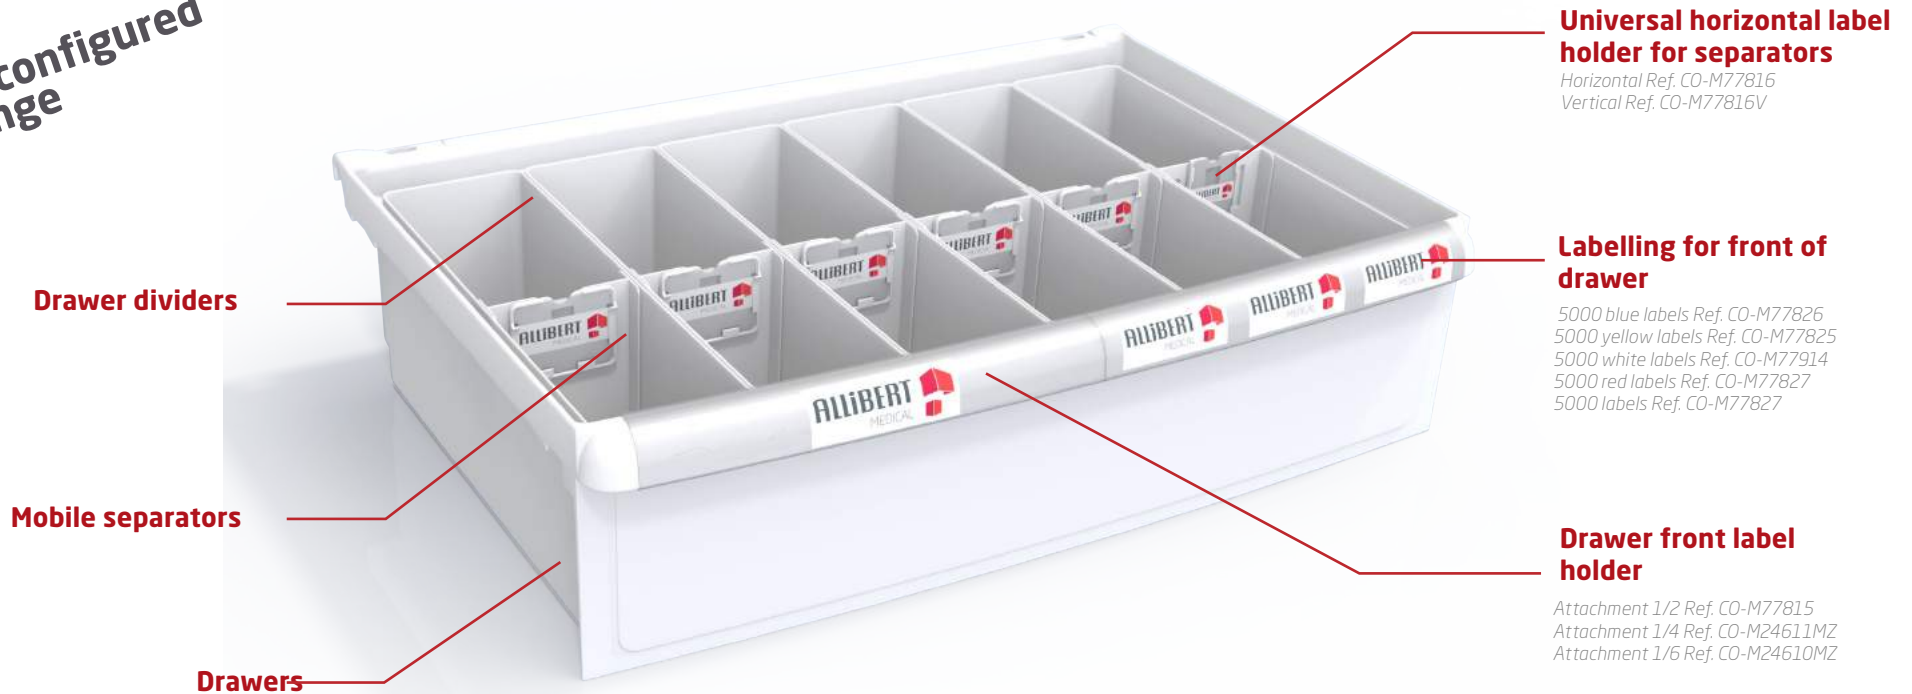

**Use:** The drawer system is adapted to the full range of units. Compartmentalisation options permit to separate, secure, store individual products of individual products. The compartment size can be adapted according to the dimensions of specific pharmaceutical packages, liquid containers or bottles, consumables, etc.

*Simple and intuitive*

EasyClip® design frees up and optimises work surface availability. You can attach and adapt the many Allibert Medical accessories depending on where and how the cart or cabinet is to be used.

*Flexible equipment components*

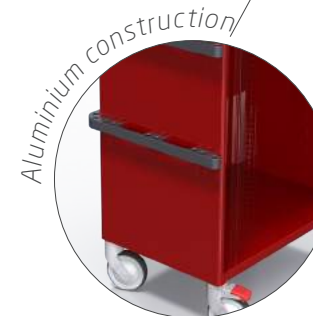

With the P20® system, there is optimal use of space and restocking is very simple and precise (under 2cm). The drawer tracks can be unhooked to make cleaning easier (for soaking/ dishwasher). Drawer track without fixtures, 1 for each side.

*All parts are easily accessible*

The result of research into effective disinfection, Allibert Medical's EasyClean® solution ensures simple dismantling to allow complete disinfection of all components and surfaces, for fast through cleaning.

*Minimal physical effort required for use*

Allibert Médical incorporates lightweight, ultra-resistant, high-performance materials in its ergonomic design process, in order to ensure optimal comfort and ease of use.

*Intelligent locking*

With its touch keypad locking system, Allibert Medical also makes it possible to monitor access to cabinets, thus ensuring fully controlled dispensing of pharmaceutical drugs and narcotic substances.

**Design Concepts**

**Use:** Based on its extensive experience, Allibert Médical has designed its new range to meet your specific needs. By actively listening to our clients, combined with our use of the latest technology, we have been able to identify five major areas for innovation in order to anticipate your needs.
